Directions: There are 4 passages in this part. Each passage is followed by some questions or incomplete sentences. For each of them there are 4 choices marked A, B, C and D. You should decide on the best choice and mark the corresponding letter on the Answer Sheet.

Passage One

Holiday Accommodation Parks, sometimes referred to as motor camps, are found in towns, resorts and rural areas, and are near a national park and a natural scenic spot. As well as offering power and cabin sites, accommodation can include On-site Caravans, Standard and Kitchen Cabins and Ensuite Units.

Holiday Parks have central facilities for showers, toilets, cooking and laundry and most have recreational facilities such as playgrounds, TV and games rooms. For overnight and camper-bums, and holiday makers, holiday parks provide safe protection for your tent; they can let visitors use rubbish stations, laundry and toilets. Many holiday parks provide self-contained units with en suite facilities and some are fully self-contained with TV, kitchen, bathroom and usually no telephones.

Backpacker hostels are generally independently owned where the emphasis is on getting travellers together. Most offer a mixture of shared rooms (dormitories) which may be single-sex on request. Double, twin and single rooms are also available.

Passage Three

Safety Warning and Notice

Before operating the camera, please make sure that you read and fully understand the content in this section. If you ignore and violate all safety warning notices indicated in this section, the camera warranty may be void. Meanwhile, not only the camera but also you and all other people around you may be severely damaged, injured, or even placed in danger of death.

For your safety: (1) Keep the camera and its accessories out of the reach of babies, toddlers and children. In particular, small parts such as memory cards and batteries could be easily dismantled and swallowed by them. (2) Use only the original accessories to avoid possible risks to health and property. And thus meet all related legal regulations. (3) Do not dismantle the camera under any circumstances. (4) When using the flash, do not go too

close to human eyes (particularly for babies, toddlers, and children) or animal eyes. Otherwise, when the flash fires, the light may cause damage to human eyes or irritate animals. (5) Batteries could explode, for instance. All batteries can cause property damage, injury or burns if a conductive material such as jewelry, keys or beaded chains touch exposed terminals. The material may complete an electrical circuit and become quite hot. Exercise care in handling any battery, particularly when placing it inside your pocket, purse, or other container with metal objects. Do not dispose of batteries in fire as they may explode. (6) To prevent electric shock, do not attempt to disassemble or repair your camera by yourself. (7) Some camera models accept non-rechargeable batteries. When using these batteries, do not charge them. Otherwise, dangers such as explosion and fire may occur.

Passage Four

FEED THE BRAIN, BUT LESS SUGAR

While no single factor has been identified as the cause of Alzheimer's, it is thought that lifestyle choices, especially exercise and sleep habits, can have a significant impact on the disease. A study by the Albert Einstein College of Medicine has suggested that lifestyle changes related to healthy aging look "more promising than drug studies." For the last decade or so, researchers have been exploring the link between our modern diet and Alzheimer's disease, specifically the connection between sugar and the disease. A study published in the New England Journal of Medicine demonstrated that even a mild elevation of blood sugar is associated with an elevated risk of dementia. Earlier research had shown that diabetics are more likely to develop Alzheimer's, but more recent research has shed further light on this: finding an intricate link between insulin resistance and the brain.

Our bodies produce insulin that is necessary for the survival of brain cells, but this process goes awry when a toxic protein called ADDL removes receptors from these cells and renders them insulin-resistant.

As the ADDL accumulates, our memory begins to deteriorate.

So what should we be feeding our bodies to give our brain the best chance? A diet low in sugar, rich in whole carbohydrates, nuts and healthy fat is essential. Opt for "real food," avoid processed options and try to keep added sugar levels to a minimum (ideally 15 and 25 grams a day). Add plenty of good fats like avocados, nuts and coconut and other nuts oil to the diet and try a high-quality probiotic to optimise the flora in the gut.

Directions: There are 10 sentences in this part. Each of the following sentences has four underlined parts marked A, B, C and D. You are required to identify the incorrect part, then write the corresponding letter and the correct answer on the Answer Sheet.

91. You (A) smash up my car, and (B) then expects me (C) **paying** for the repairs (D).

解析 C 改为 to pay

解析 expect sb. to do sth. (期待某人做某事), expect 后接不定式, 不接 doing。

92. The book will (A) show the readers (B) **how that** they (C) **have observed** can be used in other (D) contexts.

解析 B 改为 what

解析 show sb. 后接宾语从句, 从句中 observed 缺宾语, 应用 what; how that 不能引导。

93. On the grassland (A) **lays** the farmer and his (B) family, (C) **enjoying** the sunshine happily (D).

解析 A 改为 lay

解析 地点状语 On the grassland 置于句首, 句子全部倒装; lie (躺) 的过去式为 lay, lays 为第三人称单数, 误用。

94. He will (A) surely finish the job on time (B), (C) **in** that he is left to (D) do it in his own way.

解析 C 改为 provided

解析 逻辑应为条件: 只要让他按自己的方式做, 他一定能按时完成; provided (只要) 引导条件状语从句, in that (因为) 不合逻辑。

解析 C 改为 must

解析 because he never asks for leave 给出了肯定依据, 对现在有把握的推测用 must (一定), may (可能) 语气不足。

97. The doctor attempted to (A) **reason** the girl (B) **from** her anxiety; (C) **nevertheless**, he failed in the (D) end.

解析 B 改为 out of

解析 reason sb. out of sth. (劝说某人摆脱某事) 为固定搭配。

98. (A) **While** taking down his (B) instructions, you should (C) **take care** not to (D) **leave away** any sentences.

解析 D 改为 leave out

解析 leave out (遗漏、省去); leave away 不是固定搭配。

99. (A) While we are appreciating the good quality of your (B) **black tea**, we (C) **regret** that your price appears to be (D) **highly**.

解析 D 改为 high

解析 appear to be 后接形容词作表语; highly 为副词, 应改为形容词 high。

100. The local (A) **health** organization is believed to (B) **be set up** thirty years ago (C) **when** George became the (D) **first president**.

解析 B 改为 have been set up

解析 be believed to have done (据认为已经……), set up 发生在 thirty years ago, 且 organization 与 set up 为被动, 用完成被动式。

Part VI Writing (短文写作, 20 分)

Directions: For this part, you are supposed to write a composition with at least 120 words on the topic **On Life-long Learning**. Please write it on the ANSWER SHEET, and base your composition on the Chinese outline given below.

1. 什么是终身学习 2. 为什么要终身学习 3. 我的打算

101. 作文题: On Life-long Learning (至少 120 词, 按提纲写作)。

参考范文 (非官方, 仅供参考) (以下范文由编者依题目提纲撰写, 仅供参考, 非官方标准答案, 亦非任何机构公布的范文。) **On Life-long Learning** Life-long learning, as the name suggests, means continuing to study throughout one's life rather than stopping after graduation. It is not limited to schools or textbooks; it can take place at any age and in any form, such as attending online courses, reading books, or learning new skills on the job. Why should we keep learning all our life? First, the world is changing fast, and knowledge is updating quickly. If we stop learning, we will soon fall behind. Second, life-long learning enriches our mind and helps us adapt to new challenges. Finally, it keeps us active and open-minded, making our life more meaningful. As for me, I have made up my mind to keep learning. After entering the workplace, I will spare time to improve my professional skills and learn about new technologies. I believe that the more I learn, the better prepared I will be for the future.

解析 提纲式说明文: 定义 (什么是终身学习) → 原因 (世界变化快/丰富心灵/保持活力) → 个人打算 (工作之余持续学习)。

考点/方法 提纲式议论文, 120 词以上, 注意 First/Second/Finally 等连接词。
