Part III Reading Comprehension (阅读理解, 40 分, 20×2)

Passage 1

More and more people around the world are taking part in dangerous sports and activities. Of course, there have always been people who have looked for adventure—those who have climbed the highest mountains, searched into unknown parts of the world or sailed in small boats across the greatest oceans.

I would consider bungee jumping to be a good example of such an activity. You jump from a high place 200 meters above the ground with a rope tied to your feet. You fall at up to 150 kilometers an hour until the rope stops you from hitting the ground.

Why do people take part in such activities as these? Some people suggest that it is because life in modern societies has become safe and uninteresting. But in the past, they had to go out and hunt for food, and diseases could not easily be cured.

Nowadays, life offers little excitement. They live and work in safe conditions, they buy food in shops and there are doctors and hospitals to look after them if they become ill. The answer for some people is to look for danger in activities such as bungee jumping.

Passage 2

The year was 1932. Amelia Earhart was flying alone from North America to England in a small single-engined plane. At midnight, several hours after she had left Newfoundland, she ran into bad weather. To make things worse, her altimeter failed and she didn't know how high she was flying. At night, and in a storm, a pilot is in great difficulty without an altimeter. At times, her plane nearly plunged into the sea.

Just before dawn, there was further trouble. Amelia noticed flames coming from the engine. Would she be able to reach land? There was nothing to do except keep going and to hope.

In the end, Amelia Earhart did reach Ireland, and for the courage she had shown, she was warmly welcomed in England and Europe. When she returned to the United States, she was honored by President Hoover at a special dinner in the White House. From that time on, Amelia Earhart was famous.

What was so important about her flight? Amelia Earhart was the first woman to fly the Atlantic Ocean alone, and she had set a record of fourteen hours and fifty-six minutes.

In the years that followed, Amelia Earhart made several flights across the United States, and on each occasion she set a new record for flying time. Amelia Earhart made these flights to show that women had a place in aviation and that air travel was useful.

Passage 3

The Winter Olympics are also called the White Olympics. At this time, many colorful stamps are published to mark the great Games. The first stamps marking the opening came out on January 25, 1932 in the United States for the 3rd White Olympics. From then on, publishing stamps during the White Olympics became a rule.

During the 4th Winter Olympic Games a group of stamps were published in Germany in November 1936. The five rings of Olympics were sewn (缝制) on the front of the sportswear. It was the first time that the rings appeared on the stamps of the White Olympics.

In the 1950s, the stamps of this kind became more colorful. When the White Olympics came, the host countries as well as the non-host countries published stamps to mark those Games. China also published four stamps in February 1980, when the Chinese sportsmen began to take part in the White Olympics.

Different kinds of sports were drawn on these small stamps. People can enjoy the beauty of the wonderful movements of some sportsmen.

Passage 4

Be ware of (提防) those who use the truth to deceive. When someone tells you something that is true, but leaves out important information that should be included, he can create a false impression.

For example, someone might say, "I just won a hundred dollars on the lottery. It was great. I took that dollar ticket back to the store and turned it in for one hundred dollars."

This guy's a winner, right? Maybe, maybe not. We then discover that he bought two hundred tickets, and only one was a winner. He's really a big loser!

He didn't say anything that was false, but he deliberately omitted important information. That's called a half-truth. Half-truths are not technically lies, but they are just as dishonest.

Untrustworthy candidates in political campaigns often use this tactic (策略). Let's say that during Governor Smith's last term, her state lost one million jobs and gained three million jobs. Then another term. One of her opponents ran an advertisement saying, "During Governor Smith's term, the state lost one million jobs!" That's true. However, an honest statement would have been, "During Governor Smith's term, the state had a net gain of two million jobs."

Advertisers will sometimes use half-truths. It's against the law to make false claims so they try to mislead you with the truth. An advertisement might boast, "Nine out of ten doctors recommend Yucky Pills to cure nose pimples." It fails to mention that they only asked ten doctors and nine of them work for the Yucky Corporation. This kind of deception happens too often. It's a sad fact of life: Lies are lies, and sometimes the truth can lie as well.

Part VI Writing (短文写作, 20 分)

Directions: For this part, you are supposed to write a composition on the topic: **Part-time Jobs**. You should write at least 120 words, and base your composition on the outline given in Chinese below.

1. 目前，越来越多的大学生做兼职；2. 大学生做兼职的利弊；3. 你的看法。

101. 作文题：Part-time Jobs (至少 120 词)。

范文 (非官方，仅供参考) (以下范文整理自机构公开范文，仅供参考，非官方标准答案。) **Part-time Jobs** In contemporary society, college students' taking part-time jobs has become a hot topic. It has a great influence on their life. I believe there are both benefits and drawbacks. Clearly, in addition to getting an income, college students taking part-time jobs may enjoy a more exciting lifestyle as they can meet people from all walks of life and develop a sense of responsibility which can't be learned in the classroom. On the other hand, the negative effects of part-time jobs are also obvious. Students who take part-time jobs may spend less time focusing on study, and if they seek to excel in both the part-time job and study, the busy life they lead may put their health at risk. Besides, the society is much more complicated than they have expected, and they sometimes may be exposed to danger. In my opinion, college students ought to keep a balance between academic study and part-time jobs, and always bear in mind that a student's priority is to acquire knowledge at school.

解析 提纲式作文：引入（兼职成热点）→ 利弊（用 in addition to/on the other hand 分层）→ 总结（keep a balance, bear in mind）。

考点/方法 提纲式议论文（利弊类），120 词以上，注意连接词。
